
Chess Adventure 2009

This year Chess Adventure was held at Rejoice Christian School (South Campus). It had a spacious gym for all the Teams to gather together and help teach their younger teammates.

Where the kids found chess to be an adventure, filled with lots of fun activities. Such as Human Chess, a simul game against their team leader or trying to figure out answers to a chess puzzle together.

We had wonderful teachers this year. They brought with them their experience and the knowledge of chess to teach the chess campers. The teacher who taught our most experienced player on down to the least experience player. Master Chuck Unruh, John Cope, Ryan Farell, Dalton Bivins, Rachel Farell and Michelle Farell.

Chess Adventure is a place for kids to use their thinking skills and make new friends. A time in the summer for them to look forward to before school starts. I Hope to see you next year.
